

Wireless Pull Cord

Easily installed, a wireless pull cord will trigger a call on a home unit to staff or to a remote monitoring service.

A pull cord is an essential requirement for times when a personal pendant may not be worn, such as in the bedroom or bathroom, giving the user an extra means of raising an alarm.

The wireless pull cord requires extremely low maintenance with a battery life of typically 10 years.

Features

- Red cord with small white end grip
- Momentary action pull switch
- 4 hour supervision transmissions
- Automatic low battery reporting
- Battery isolation switch for transportation

Technical Details

Part Number:	64604/02
Fixing details:	Fitting into a wall box with faceplate mounting on 3.3" centers
Radio Frequency:	312.000 MHz
Battery:	> Integral battery, not user replaceable > The battery has a nominal life of 10 years, or 80,000 transmissions (including supervision transmissions) whichever is sooner
Dimensions:	W 2.76" x H 4.49" x D 2.99" (70mm x 80mm x 23mm)
Cord Length:	4 ft ±2" (122 ±5 cm)
Operating Temperature Range:	14° F to 131° F (-10° C to +55° C)
Radio Range:	300 ft to 450ft (91 m to 137 m) in free space
Supervision:	Full
Standards:	FCC CFR47 part 15, Canadian RSS210
Product Compatibility:	Telecom 400, Telecom 4000, Caresse, Caresse+
